Options and accessories

Closed circuit cooling towers

Options and accessories

Below is a listing of the main Nexus® options and accessories. If your required option or accessory is not listed, look no further than your local BAC representative.

Water Treatment Solutions

Discover the water treatment solutions available for the Nexus Modular Hybrid Cooler.

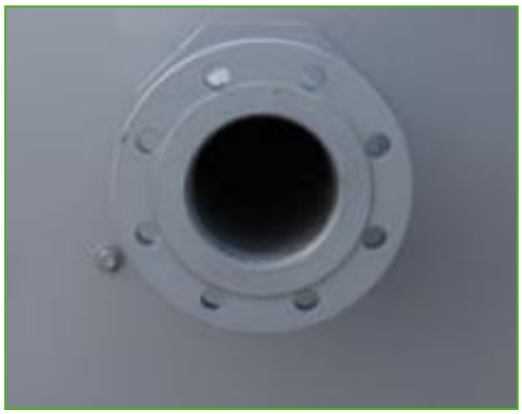

Electrical panel heater

Protects electronic components in the iPilot™ electrical panel during extremely cold temperatures.

Basin heater package

Our factory-installed heaters prevent the cold water basin from freezing and damaging the unit during shutdown or stanby.

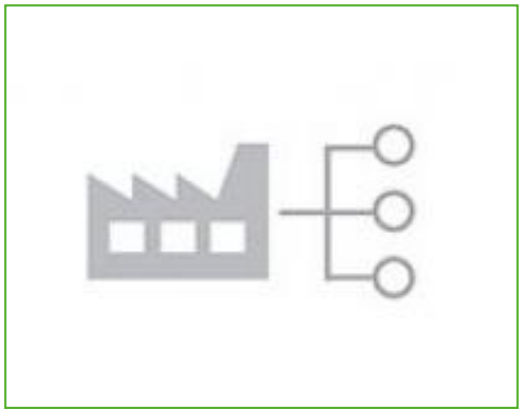

Flanges

Flanges facilitate **piping connections** on-site.

Positive closure dampers

Use positive closure dampers (PCD) **to minimize the heatloss due to convection** by preventing airflow through equipment that is shut down.

BMS supervision

This option integrates the iPilot™ Control System in your Building Management System (BMS).
